# **MS450™ Mining Scale Systems**

Platform Scales to Monitor Loads & Prevent Undue Wear & Tear On Equipment

## ***Maximize Loads, Increase Operation Safety & Improve Equipment Life with On-Site Mining Scales***

Intercomp's MS450™ Mining Scale Solutions provide a durable, high-capacity solution to ensure efficient and safe operation. Platform scales can be brought to sites as above-ground portable scale systems or are available as semi-permanent in-ground systems.

Scales are available in capacities up to 1,600,000lbs (800 tons) and in a wide variety of sizes. Data is collected via cabled or wireless communication in manned or unmanned use.

**Intercomp**<sup>®</sup>  
advanced weighing technology... by any measure

## MS450™ Mining Scales

- System Capacities Range from 120,000lbs (60,000kgs) to 1,600,000lbs (800 tons)
- Environmentally Sealed Load Cells for All Weather Protection
- Above- & In-Ground Models
- Man/Unmanned & Static/Dynamic Modes of Operation
- Optional Integrated RFX™ Wireless Communication Available

In-Ground Systems

Above-Ground Systems

### Compatible with These Intercomp Devices

#### PT20™ CPU

Provides the ability to process weight related data and is self-enclosed in a rugged, all-weather case for use in even the most remote locations.

#### IntercompWeigh™ Software

Manage any weighing process, view scale data, customize layouts and generate reports in one, easy-to-use program.

(PC Not Included)

#### iVehicleWeigh™ Scale App

Input weight data into an iPhone®, iPod® or iPad® to save and email information easily and conveniently. Available for download **FREE** from iTunes®.

#### S400™ Display & Wireless Printer

Offers wireless communication with scales via RS232 or Ethernet Connection through the RFX™ Data Converter.
