# Clamp Temperature Probe

## Model : TP-05

* Clamp Type K Temp. probe, allows for hands-free super-heat ( super-cooling ) temperature measurement. The useful Temp. probe, ideal for pipe surface temperature, heating, ventilating, air conditioning, engine or cylinder circular tube.
* Measurement range : -50 to 350 oC, -58 oF to 662 oF.
* Accuracy : 2.5 oC, 4.5 oF.
* Spring-loaded jaw for secure grip for pipe size from 3 mm to 48 mm diameter.
* Cooperate for any Thermometer with a Type K thermocouple input .
* Cable length : 2 meters coiled cable

\* Appearance and specifications listed in this brochure are subject to change without notice.
